Missouri Weekly Hay Summary - Week ending 02/23/2018

Although no immediate changes in the drought monitor some much needed moisture spread across the state. Most areas got 1-2 inches of rain not near as much as predicted but it came good and slow and was very welcomed. Farmers are hoping this is a turning point and perhaps moisture will continue as the new growing season approaches. Although the state saw another round of ice several days of warm temperatures have resulted in a tiny tint of green to some wheat and a few springs of grass around if one looks really close. Hay movement is light. Hay supplies are moderate, demand is moderate and prices are steady to firm. The Missouri Department of Agriculture has a hay directory available for both buyers and sellers. To be listed, or for a directory visit <http://mda.mo.gov/abd/haydirectory/> for listings of hay <http://agebb.missouri.edu/haylst/> (All prices f.o.b. and per ton unless specified and on most recent reported sales price listed as round bales based generally on 5x6 bales with weights of approximately 1200-1500 lbs).

Supreme quality Alfalfa (RFV <185) 180.00-250.00

Small squares 6.50-8.00 per bale
